# ICT ACADEMY OF KERALA

**INDUSTRY READINESS PROGRAMS**

# CERTIFIED SPECIALIST IN
# FULL STACK DEVELOPMENT (JAVA)

Java Full-Stack training is a comprehensive program that prepares learners to develop full-stack web applications using Java. It covers both front-end and back-end development, teaching client-side technologies like HTML, CSS, and JavaScript, along with frameworks like Angular or React. On the server side, it focuses on Java programming and frameworks like Spring Boot to build secure, scalable applications. The course also includes database management, API integration, and version control, providing practical, hands-on experience to develop complete web solutions.

## Eligibility

- The following shall be eligible to join the course;
- Engineering or science graduates / three-year diploma in any engineering branches, having a foundation level knowledge (plus two equivalent) in Mathematics and Computer fundamental skills.
- Students who have completed their graduation but are awaiting the final results can also apply.

*\*Please note that the ICT Academy of Kerala will have the right to cancel the candidature at any point if found ineligible.*
